WINNEBAGO

Why View?

- Mercedes-Benz® Sprinter chassis
- Primera swivel cab seats
- Available cabover bunk
- Radio/Rearview Monitor System
- Energy-efficient LED lighting
- Powered patio awning
- Maximum usability with SmartSpace™ design
- Flex Bed System (24V)
- MCD blackout roller shades
- Available Infotainment Center with Rand McNally RV GPS

On the Cover: **24J** Charcoal Full-Body Paint (with Available Cabover Bunk)
24J Carbon Champagne Deluxe Graphics

24J Studio B with High-Gloss Marbella Cherry/Canvas Cabinetry

The Best View Around

See new sights with the View® and experience the performance, towing power, and fuel economy of the reputable Mercedes-Benz® Sprinter chassis. With an emphasis on comfortable living, the View features four attractive floorplans with room for expanded dining and relaxation. With sleeping arrangements ranging from an available cabover bunk to a queen bed to the twin bed Flex Bed System, you can easily accommodate family or friends. Featuring our SmartSpace™ design philosophy, this fuel-efficient Class C motorhome continually surprises with its spacious interiors and plentiful amenities. Embrace comfort and efficiency when you travel in the leading Sprinter-based View.

Recognized Quality The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service, and support. Winnebago is proud to be the only manufacturer that has received this award every year since its inception.

Best in Class

See how Winnebago takes motorhome design and function to the next level, and why we've earned the right to be called the Most Recognized Name in Motorhomes.®

Click on this icon throughout the brochure to link to more information on the web.

The available **Infotainment Center with Rand McNally RV GPS** features a touch screen color monitor, CD/DVD player, turn-by-turn voice navigation, rearview monitor, SiriusXM™ satellite radio (subscription not included), and much more.

During the day, enjoy meals at the **U-Shaped Dinette** and kick back with the footrests that flip up. At night, convert the dinette to a bed for a sleeping space for your guests.

Enjoy the fully-adjustable **Primera Cab Seats** that swivel to become part of the lounge. Add to your comfort with the available cab lounge seat cushions that raise the seat height by 4 inches.

The easily-accessible **2-Burner Range Top** comes with a glass cover that folds down to provide more counter space.

The BenchMark® full comfort dinette comes standard in the 24M and provides seating, storage, and sleeping space in one versatile package, while the 24J offers a U-shaped dinette with footrests. The 24G and 24V feature your choice of the standard sofa/sleeper with a movable table or the available L-shaped sectional dinette. Popular amenities include a coach stereo system, an HDTV, available powered skylight/roof vent with a sliding screen and pleated shade, MCD roller shades, and more. Plus, standard LED lighting reduces lighting energy consumption by up to 70 percent—dramatically cutting energy demand during extended dry camping trips.

24J Studio B with High-Gloss Marbella Cherry/Canvas Cabinetry

24J Available Powered Skylight/Roof Vent

24J U-Shaped Dinette as Bed

24J HDTV

24J Galley

It's easy to prepare snacks and full meals using the versatile and convenient microwave/convection oven. You'll have extra food prep space when you make use of the flip-up glass range cover. The interior upgrade package comes with a frosted galley backsplash with accent lighting and two sink covers.

Refrigerator/Freezer

2-Burner Range Top with Glass Cover

Full-Extension Drawer Slides

24J Bed

Sleeping arrangements abound in your View. A double bed (24J) with headrests that flip up creates the perfect place to read. The Flex Bed System in the 24V provides multiple options while the 24G features a spacious, walk-around queen bed with storage on both sides. You can watch your favorite shows late at night on the available HDTV (NA 24M). The 1,000-watt inverter with a dedicated 110-volt outlet connection provides convenient use of power when shoreline power is not available.

Dash

The open road always calls when you experience it from the comfort of the Primera cab seats. Once parked, these luxury cab seats can swivel to face the lounge, providing additional seating and increasing your general living space. Popular amenities include the touch screen radio that lets you listen to CDs or MP3s and incorporates the Rearview Monitor System for safe backing and maneuvering. Choose the available Infotainment Center with Rand McNally RV GPS including SiriusXM™ satellite radio (subscription not included) for quality trip guidance and nonstop digital entertainment.

Pleated Windshield Blinds

View Exterior

Make lasting memories by spending the day outdoors, and enjoy the shade provided by the standard powered patio awning with LED lighting and a protective metal wrap (available with full-body paint). You can even take your music outdoors with the exterior speaker system. Each model features a surprising amount of exterior storage and an exterior service center with color-coded labeling for hassle-free hookups.

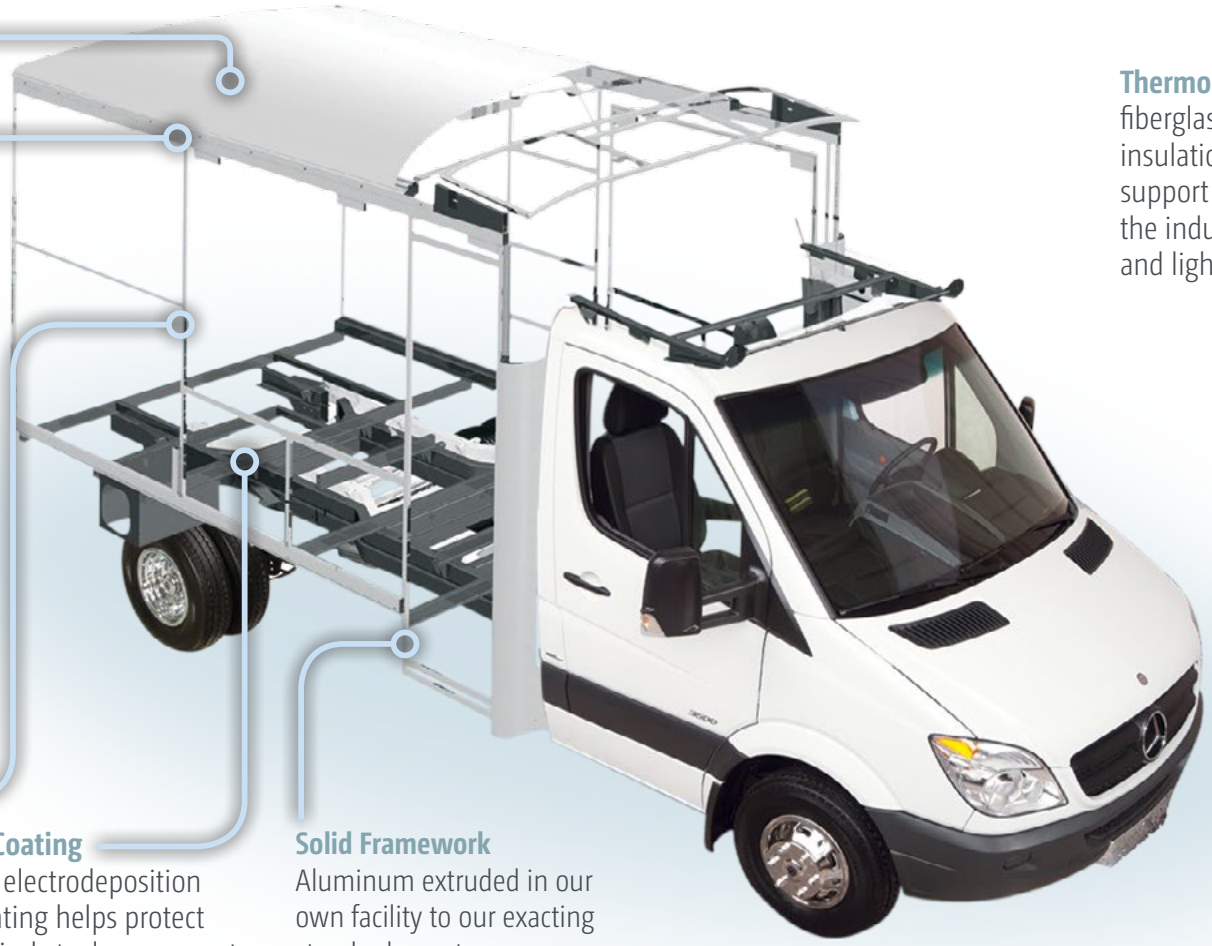
View SuperStructure

Fiberglass Roof The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Rubber Can't Cut It
Rubber roofs used by competitors can streak and degrade over time.

Interlocking Joints
Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

Embedded Steel
Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.



E-Coating
An electrodeposition coating helps protect critical steel components.

Solid Framework
Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

Thermo-Panel® Sidewalls By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

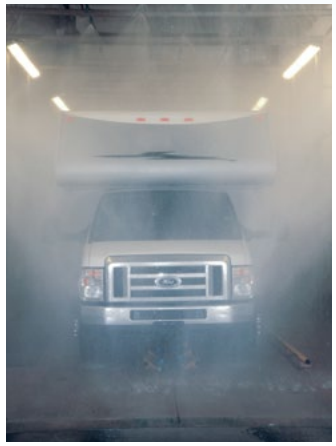
Laser-Cut Tubing
Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

SUPER STRUCTURE®
BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction standards. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

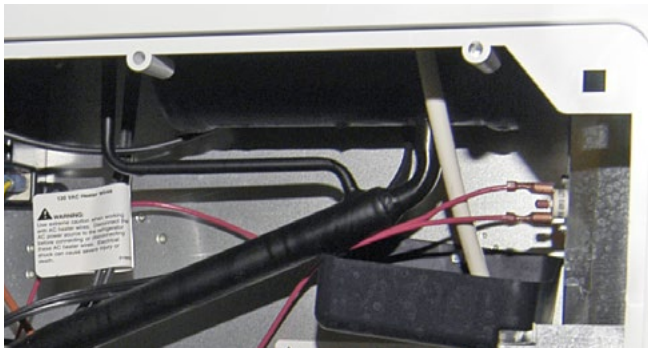
TESTING

Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.



DETAILS

At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.



BUILT IN-HOUSE

We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

SUPER STRUCTURE®

BUILT TO LAST

Warranty[6]

12-month/15,000-mile basic limited warranty[7]

36-month/36,000-mile limited warranty on structure[7]

10-year limited parts-and-labor warranty on roof skin[7]

1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.

2 The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.

3 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.

4 Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

5 Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

6 See separate chassis warranty.

7 See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
